Medicinal Compound.

(*This Invention received Provisional Protection only.*)

PROVISIONAL SPECIFICATION left by Michael Zumpf D'Aschan at the Office of the Commissioners of Patents, with his Petition, on the 24th April 1868.

I, Michael Zumpf D'Aschan, of No. 8, Wensley Street, Oxford Street, in the County of Middlesex, Analytical Chymist, do hereby declare the nature of the said Invention for "A New Vegetable Medicinal Compound to be used as a Remedy for the Cure of Scalds, Burns, Open Wounds, Swellings, Stiff Joints, Rheumatics, the Gout, and other Complaints," to be as follows :—

In this compound the following ingredients are used and in or about these proportion :—Take of dried juniper berries [juniperus communis] or of dried elderberries [sambucus], three ounces; bran from wheat [triticum], one pound; bran from barley [hordeum], one pound; bran from oats [avena sativa], one pound; roast it in a roaster to a certain degree, then pour distilled boiling water upon it; the quantity must be

calculated according to the strength required; let it thereupon macerate from 12 to 24 hours then be filtered for use.

This medicine can be taken internally, applied externally, or be used in the form of baths according to circumstances. The very nature of the ingredients shows its obvious innocuousness. 5
